REMARKS

This is UNEVALUATED  
Information

25X1

Between 2 October and 2 November 1954, work continued at Wolfsbehringen airfield. Grading work on the runway was started from its eastern end. The barracks at the northern edge of Haina Forest were completed. The construction staff was allegedly quartered in these buildings. Work on the spur track had advanced beyond points 283.8 and 302.3 to as far as the edge of the wood. Only construction material was previously shipped on the spur track.

25X1

Comment. Work on the spur track is nearing completion. It appears that, due to the improved weather, grading work is under way on the runway.
